

# Hyperion Web Analysis 9.0: Design Reports

## Lo que aprenderá:

This course is designed to teach you how to create, manipulate, and maintain Web Analysis documents using Workspace and Web Analysis Studio. You learn how to build simple and complex views of data; create spreadsheets, charts, pinboards, and custom Web Analysis documents; set traffic lighting; and manage formats. Exercises help you practice the skills taught.

## Prerequisites:

### Prerequisites Sugeridos:

- Familiarity with basic Microsoft Windows skills
- Knowledge of spreadsheets
- Familiarity with one or more data sources.

## Objetivos Del Curso:

- Manipulate and distribute data in Web Analysis documents
- Create Web Analysis documents
- Add data analysis functionality to Web Analysis documents
- Set personal preferences
- Design custom Web Analysis documents
- Administer Web Analysis
- Navigate Workspace and Web Analysis Studio

## Temas Del Curso:

### Web Analysis Overview

- Hyperion Business Performance Management
- Hyperion System 9
- Key Benefits of Web Analysis
- Key Concepts
- Navigating Workspace
- Navigating Web Analysis Studio
- Workspace and Web Analysis Studio Tasks

## **Manipulating and Distributing Web Analysis Documents**

- Data Structure Hierarchies
- Navigating Documents
- Manipulating Data in Documents
- Distributing Documents

## **Creating Web Analysis Documents**

- Defining Queries
- Setting Format Options
- Creating Chart Views

## **Adding Analysis Functionality**

- Analysis Tools Overview
- Changing the Data Display
- Managing Analysis Tools
- Creating Calculations
- Adding Traffic Lighting
- Creating Pinboards

## **Setting Personal Preferences**

- Selecting User Preferences
- Managing Content Access
- Reducing Repetitive Member Selection

## **Designing Custom Web Analysis Documents**

- Relational Data Source Options
- Linking Documents
- Linking Related Content
- Creating Custom Documents

## **Administering Web Analysis**

- User Provisioning
- Setting Item Permissions
- Creating Data Source Connections
